Incentives

The City of Rockdale offers business development incentives to prospective businesses including [property tax abatements](#), Chapter 380 sales tax incentive agreements, and negotiated city permits and fees.

Municipal Development District

The Rockdale Municipal Development District may assist in the acquisition of land or construction expenses associated with a new business venture that creates primary jobs.

Facade Improvement Incentive Program

The Rockdale Municipal Development District has implemented a city-wide facade improvement incentive program for businesses. The Municipal Development District will match eligible facade improvement projects on a dollar-for-dollar basis, up to \$10,000.00. The total funds available for all projects is \$30,000.00

A copy of the program including program description, program goals, eligible applicants, eligible costs and improvements, design requirements, funding availability, and application form can be [downloaded here](#).

Chapter 380 Agreements

Chapter 380 of the Texas Local Government Code allows Texas municipalities to provide a grant or a loan of city

funds or services to promote economic development. A Chapter 380 development agreement bypasses the need for upfront government incentives and kicks in only when a project is operating, thereby avoiding the prospect of a failed development taking incentive dollars.

Under a Chapter 380 agreement, a developer and taxing body negotiate a contract to provide sales tax incentives in return for the project meeting performance benchmarks. The agreement should help the business offset some costs associated with construction and infrastructure.

Projects will be evaluated individually. The maximum sales tax rebate granted, by law, will be 50%. The rebate must be put into approved infrastructure improvements on the property.
